

Divisional Appl. No. _____
Preliminary Amdt. dated July 11, 2003

REMARKS/ARGUMENTS

The Title of the Invention has been amended to more accurately describe the subject matter claimed in the present divisional patent application.

The amendment to page 6 of the specification duplicates an amendment approved in parent application Ser. No. 09/219,090.

Claims 19-26 were originally presented for examination in parent application Ser. No. 09/219,090 but were subject to restriction and not elected in the parent application. Such claims have been amended above to present such claims in better form for examination, except that claim 24 has been canceled and replaced with new claim 32. New claims 31-38 are being added to the present application by this Preliminary Amendment.

Respectfully submitted,

CAHILL, von HELLENS & GLAZER P.L.C.
